AGCO is very pleased to once again be partnered with Cordex, an ISO 9001:2015 certified global company that supplies products in 55 countries worldwide. Established in 1969, Cordex's commitment to service, quality and price competitiveness is unsurpassed in the industry.

Cordex is the only manufacturer in the world that produces all four of the major baling products used for crop packaging: synthetic and natural fiber twines, silage film and net wrap. They are a family owned, quality focused company that re-invests in continual improvement and new product development. With 10 distributions centers throughout the US and Canada, Cordex maintains deep inventories for prompt delivery throughout the year.

NET WRAP

PROFESSIONAL™

- Minimum length guaranteed
- ISO 9001 Certified
- Red end warning stripe
- UV stabilized

ADVANCED™

- Weft lines are reinforced in an "X" pattern instead of the traditional "Z"
- Reinforced net wrap that gives extra strength in the middle of the bale
- Perfect choice for **tough to bale crops** (i.e. corn stalks)
- Increased water-shedding capabilities
- Red end of roll warning stripe on last 250 feet of the roll

ADVANCED MAX™

- **15% greater strength** is ideal for baling heavier, denser, and larger hay bales
- Maximum spreadability with enhanced side-to-side coverage
- High visibility striping pattern
- Available in extended lengths = more time baling

PROFESSIONAL

PRO TIPS

Net wrap provides many benefits over conventional twine.

- Produces 32% more bales per hour
- Provides better protection from the weather
- Saves on fuel and labor costs
- Significantly greater productivity, especially with larger acreages and custom balers

PLASTIC TWINE

PROFESSIONAL™

- Meets industry standards
- Optimal for all baler types
- Available in various colors
- Fully UV stabilized
- Suitable for day to day baling

ADVANCED™

- **80% more grip than regular twine**
- ISO 9001 Certified
- Less knot failure = less downtime
- Tighter, denser bales for more hay and less twine
- Available in **GIANT SPOOLS** for **25% LONGER RUNNING TIME** for large square balers

ADVANCED MAX™

- For high density bales
- New generation of Knot-Tec Technology
- High Visibility – Absolutely Pink
- Easy-tie knotter friendly

SILAGE FILM & KITS

Improve feed nutrition by fermenting various types of hay and feed crops with silage film from Cordex.

Eliminating oxygen from the bale allows the silage bacteria to produce a natural preservation process. This improves palatability and digestibility of the feed resulting in increased milk outputs and weight gain.

- Premium co-extruded 5 layer film
- High puncture resistance
- Superior strength
- Suitable for round and large square bale wrapping
- UV protected
- High barrier properties

CORDEX SILAGE FILM	
PRODUCT SIZE	PART NO.
20" – 500MM x 1800M	ACP0492120
30" – 750MM x 1500M	ACP0492130
ADDITIONAL PRODUCTS	PART NO.
93" x 72" END CAPS	ACP0224370
110" x 72" END CAPS	ACP0224380
